

Creative Patterns

KEY ELEMENTS

Key elements of the style include a desire to express your creativity in a way that is authentic to your personality and aesthetic. You will mix patterns, prefer unusual construction or deconstruction of garments and like to put your own personal spin on every outfit.

You'll find unusual mixes of colours, textures you would not conventionally see together such as smooth and shiny with boiled and nubby, and you may prefer digital prints or even making your own clothing and accessories if you have the skills.

CREATIVE ACCESSORIES

Your accessories are unique and unconventional.

Handmade and artistic you will avoid standard mall jewellery stores.

Your shoes may be retro or have some unique features or details.

Handbags will express your personality, nothing plain black, and boring for you!

GROOMING

Your grooming likely asymmetric or never conservative.

Your makeup is also unique to you - as you are an original, unlike anybody else.

To get the full picture on how to dress for your personality as well as discover your best colours, your figure flattery guidelines and your personal style values join my [7 Steps to Style Program](#) - because defining your personal style is the easiest way to have a wardrobe full of clothes you love to wear.
